Accessories

Custom-designed carton flow solutions often include accessory products to enhance the performance and longevity of your system. Mix and match accessories as needed to tailor your solution.

Impact Tray

Custom fit steel trays take the abuse from repeatedly loading heavy cartons and totes while protecting your rollers

Full Length Guides

Low profile guides ensure lane separation during flow operation.

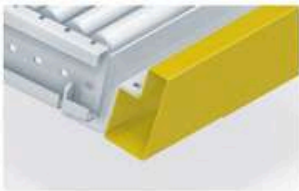

Label Holders

Adhesive backed extruded plastic label holder to offer organization and efficiency.

Brackets

We offer all types of mounting brackets based on beam types and application requirements. Custom Brackets available.

euroroll

FLEXIBLE STORAGE SPACE LIGHT AND HEAVY LOADS.

Euroroll RollerFlow drops into existing structures and creates flexible storage space for light, medium and heavy loads. Our galvanized, durable steel rollers provide reliable flow for boxes and totes. Maximize your floor space and improve productivity. Secure the fit with custom mounting brackets.

Features

- Steel rollers support up to 50 psf with unsupported lengths up to 96"
- Rated for cooler & freezer applications
- Tilt shelf options to allow for split-case picking
- Numerous mounting options available to accommodate all beam types
- Flexibility in design – Various configurations
- Entry guides and impact trays available for feed end
- Rollers available with standard bushings or bearings

Benefits

- Preassembled and installs easily to any new or existing pallet rack
- 300% more carton surface contact
- Ideal solution for even the most active warehouses and manufacturing facilities
- Easy installation – No tools required
- For full-case and split-case picking
- Ideal for beverage applications
- Reduce travel time for order pickers
